Our Commitment to Quality

For over 20 years, Whetstone Windows & Doors has grown to become one of Melbourne's most respected manufacturers of timber windows and doors. Our experience and professionalism has seen us become widely renowned experts in the manufacture and design of contemporary joinery. At Whetstone Windows & Doors we are constantly developing our products so our customers receive a high end, energy efficient product, at an affordable price.

Being a family owned and operated business, we understand the importance of and appreciate total customer satisfaction. After all, customer satisfaction helps secure the future of our business.

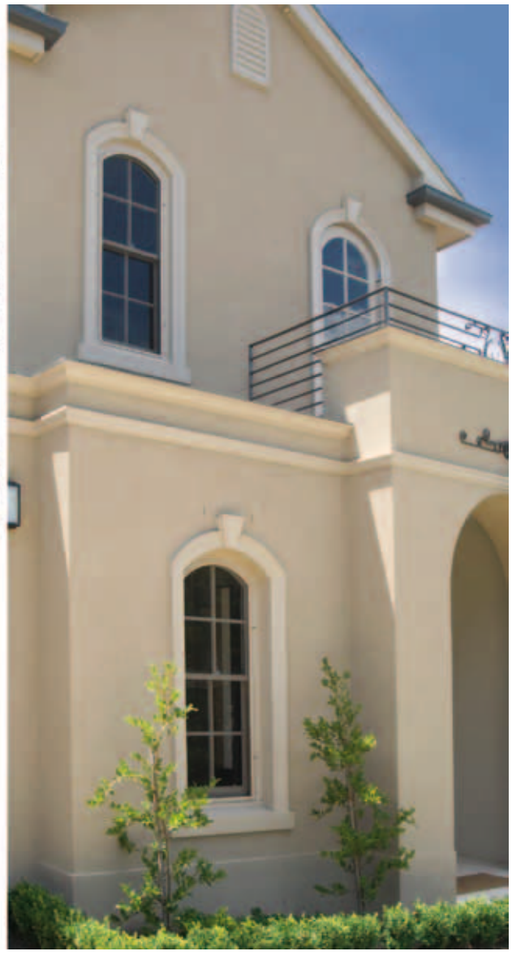
As Melbourne's specialists in bifold doors and windows, we are widely acclaimed for our attention to detail, unsurpassed craftsmanship and our commitment to outstanding customer service.

Whether you are constructing a contemporary or period style new home, or need period replicas for you restoration, Whetstone Windows & Doors will work with you from planning stages through to completion. The end result will be stunning windows or doors from Whetstone that are sure to catch the eye, add value to your home and be the talk of your family and friends.

WHETSTONE

Period timber windows

& doors



Whetstone Windows & Doors was founded on the appreciation and interest of period homes and therefore period joinery. Time and time again we have supplied windows and doors for heritage listed buildings. Whether it be a Victorian, Edwardian, Federation, Californian bungalow, or Art Deco, we can provide windows and doors to fit seamlessly within.

Traditional Entries, Weight and Pulley Double Hung windows and Casement windows. Single or double glazed, all with schlegel weather seals.

Visit our showroom to see examples of these items on display.

Bifolding doors

Increase your living space to entertain friends and family.
Extend your living or entertaining space with timber bi-fold doors or windows. Bi-folds are an attractive and versatile way of opening up rooms by allowing an abundance of natural light into rooms or can provide living options when used to divide space.

WHETSTONE
& Top hung sliding doors

Maximise your view and your outside space.
Stacking and sliding doors are a versatile option when it comes to opening up your entertaining space, without obstructing your outside area.
Our Stacking and Sliding doors are top hung for superior operation and minimal wear on moving parts. We can achieve large door opening sizes due to the quality top hung carriers we use which allow total ease of operation and maximum glass sizes to increase your clear view.

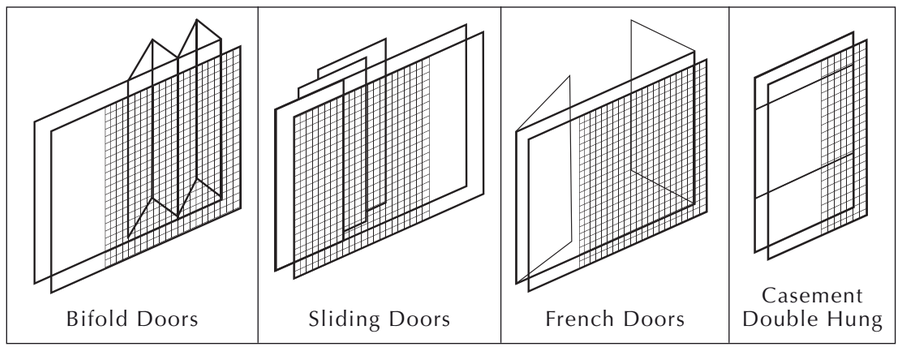
See our fly screens page for superior screen solutions for Bi folding doors and Stacking/Sliding doors.
Screens can be used with any Doors or Windows.

Retractable flyscreens

Retractable Flyscreens that are practical yet unobtrusive

If you want a beautiful looking space with an unobstructed view through your new doors or windows but are worried about flies, mosquitoes and other flying pests then Centor retractable insect screens from Whetstone are the solution.

Screens can be used with any Doors or Windows



WHETSTONE

Retractable flyscreens

Centor retractable insect screens are the best available.

Whetstone Windows & Doors are a recommended retailer and installer of Centor ES2 Screens for bifolding doors and S1 Screens for practically any door or window configuration.

- *Openings can be as large as 3.2 metres high and 7.6 metres wide.*
- *The retractable flyscreens carry a ten year warranty against manufacturing defect.*
- *They are hardwearing, tough and resistant to damage from pets. They have been thoroughly tested and the designers have catered for anything that life might throw at them.*
- *Manufactured entirely in stainless steel, brass and reinforced engineering polymers the systems have undergone cyclic testing to 50,000 operations in a laboratory and been extensively exposed to dust, mud, sand and corrosive atomosphere.*

Guarantee

Subject to conditions below, we guarantee windows and doors of our manufacture to be free of defects that would render them unserviceable for the use for which it is intended and to be of good quality and workmanship for five (5) years from the date of shipment by the manufacturer.
Under this Guarantee the manufacturer agrees to repair or replace, as its option, unfinished and in the form as originally supplied and without charge, any windows and doors and found to be defective with the meaning of the guarantee.

Provided that:
(a) Doors and windows are inspected on receipt for visible defects and any such defects are brought to the attention of the manufacturer by notice in writing notifying the date and place of service within seven (7) days of such defects being detected, and in any event, within five (5) years from the date of manufacturer's shipment.
(b) Doors and windows are to be accorded reasonable treatment by the Purchaser and are to be stored flat in dry buildings – not hung in damp or freshly plastered areas.
(c) Immediately after fitting and prior to hanging, the entire door or window, including the top and bottom edges, receives two (2) coats of paint, varnish or sealer to prevent undue changes to the moisture content within the door. Semi-solid and Solid Core doors should only be painted in flat, semi-gloss or satin finishes.
(d) Doors and windows are finished with light reflective, exterior finish colours.
(e) Through out the warranty period windows and doors are maintained so as to prevent deterioration from normal weather conditions.
(f) All solid construction doors are hung with a minimum of three (3) 100mm hinges.
(g) The utility or structural strength is not impaired in the fitting of the door or window, the application of the hardware or cutting and or altering the doors or windows.
(h) The moisture content of the timber does not fall below 12% or exceeds 18%.

And provided further that a door or window will NOT be found to be defective within the meaning of this Guarantee if;
(i) Doors and windows become ineffective through failure to follow these recommendations or for hazards of shipment or storage, after the doors and windows leave control of the manufacturer.
(ii) There is natural variation in the colour and texture of the timber.
(iii) There is a twist or bow not exceeding 5mm on doors up to 2134 x 914 x 35mm or 6mm for doors up to 2438 x 1219 x 35mm. Doors exceeding 2438 in height or 1219 in width are not guaranteed against twist or bow.
(iv) There is shrinkage or splitting of frame members or panels in solid joinery due to atmospheric conditions.
The manufacturer is not liable hereunder to reimburse any purchaser for doors or windows repaired or replaced without the prior written consent of the manufacturer.

This guarantee is subject to the terms and conditions specified above and we shall be under no further liability to you with respect to defective doors and windows except to the extent that any additional liability attached to us by the virtue of any binding State, Territory of Federal regulation relating to the sale of goods. All conditions and warranties implied into contracts for the sale of goods and supply of services are hereby expressly excluded PROVIDED THAT nothing covered in this is extended or shall be taken to exclude, restrict or modify those conditions and modified in the guarantee.

WHETSTONE *Materials*

Glazing options Energy efficient windows and doors help minimise the use of artificial heating and cooling within your home. Double glazing and Low E glazing are now a top priority to many customers. Whetstone Windows and doors can install energy efficient glass required to meet energy ratings or work with you on the most cost effective and energy efficient option for your home.

With energy efficient glazing; 1. Increase the comfort of your home, being warmer in winter and cooler in summer. 2. Design large glass areas without the worry of unwanted heat loss or gain. 3. Reduce costs and green house gas emissions, help your bank balance and the environment. 4. Reduce noise with double glazed units.

Timbers Whetstone Windows & Doors works with many different timbers of various durability ratings and appearances. We work with customers preferences on the types of timbers they require in their homes and source the chosen timbers from various suppliers.

Factory priming We can undercoat any product if required. If your windows or doors will be finish painted on-site, Whetstone Windows & Doors can prepare your product with 2 coats of oil or water based undercoat. This service will protect your products for a short time when they arrive on site, but we recommend you apply your finished paint colour as soon as possible to protect your investment. If you wish to stain or clear coat your windows or doors we will provide your product in raw, sanded timber, ready to be finished on site.
